Blizzard

Many of us like to play in the soft, white snow of winter. 13
Watching a snowfall can be fun. 19

But sometimes, falling snow can be unsafe. Blizzards 27
are winter storms that can be unsafe. These storms have 37
strong winds, heavy snow, and cold air. The wind can 47
blow hard and fast. The snow can blow so hard that 58
it hides almost everything. Sometimes all you can see 67
in front of you is snow. This is called a *whiteout*. In 79
a whiteout, drivers cannot see the road or other cars. 89
People cannot see where they are walking. 96

When there is a blizzard, people should stay inside and 106
watch the snowfall. That is the best way to stay safe. 117
