Scavenger Hunt

Dear Jenny, 2

Because you were not able to come yesterday, I want to 13
tell you about our picnic. We visited the state park, where 24
we had a scavenger hunt. Mr. Roberts divided the class into 35
two teams—the Bluegill Fish and the White-Tailed Deer. He 45
picked those names to help us remember the state fish and 56
state animal. Marty and I were both on the Bluegills team. 67

Next, Mr. Roberts gave us a list of state symbols that we 79
had to locate in the park. The first item was the state flower, 92
the violet, and when Marty saw this, he smiled. He knew 103
that violets like shade, so our team looked under some trees 114
near the curb where the bus had parked. We found a place 126
that was entirely covered with purple violets. Then we 135
checked state flower off the list. 141

A few seconds later, a cardinal landed in a nearby tree	152
and a monarch fluttered past, allowing our team to check	162
the state bird and state insect off the list. We realized we	174
were tied with the other team with only minutes to go.	185
Luckily, we noticed the state flag flying on a flagpole near	196
the park's headquarters, so we added that to our list and	207
won the game!	210
 Your friend,	212
